Experience

Florida State Soccer

January 2024-

Internship

- Used knowledge of global women's soccer tournaments and desire to watch film to independently discover a player that was then signed for the team
- Took stats from matches and created many visualizations tailored to coaches and players
- Managed equipment (balls, jerseys, treatment equipment, cones and flats, etc...) both at home and on the road, ensuring the team always had what they need
- Filmed, clipped, and participated in practices (daily with goalkeepers, very often with larger team) to improve the training and film review efficiency for players
- Worked to become very familiar with the tools of the soccer analytics industry including Sports Code and Wyscout

Tallahassee Soccer Club

February 2022- July 2025

Internship

- Ran the main camera feed for multiple matches
- Filmed, edited, and uploaded content to be used on the team's YouTube channel
- Kept live stats during matches that were reported to the league
- Worked check-in and merchandise handout for try-outs and team events
- Completed numerous jobs relating to preparing a facility for a match and for its next use

Full Court Analytics

September 2023- February 2025

Internship

- Main responsibility was tagging basketball games for coaches to review with their teams
- This process included keeping stats for all players accompanied by video
- Honed organization and time management skills, as games were uploaded without warning and must be completed within 24 hours

Related Coursework

Florida State Sport Analytics

August 2022- April 2024

- Developed a real-life scouting report for a soccer coach which was later improved working in the soccer scouting world in a more professional role
- Created a number of analytical models across different sports using a combination of R coding and Excel
- Completed multiple case studies where data sets provided insights on various sports

Skills and Certifications

- Experienced in R and creating data visualizations and metrics in the program relating to soccer
- Certified in Adobe Photoshop, Illustrator, InDesign, and Premiere Pro
- Experienced in SportsCode, Wyscout, and StatsBomb
- Experienced in the Microsoft family of programs (Word, Excel, PowerPoint)
